Education

M.S. Master of Public Health

Shiraz University of Medical Sciences, Shiraz, Iran

Oct. 2015 – Feb. 2023

- GPA: 17.50/20
- Thesis: "How similar are drug data and disease self-report? Estimating the prevalence of chronic diseases in less developed settings."

M.D. Doctor of Medicine

Shiraz University of Medical Sciences, Shiraz, Iran

Oct. 2014 – Jan. 2022

- GPA: 17.60/20

Academic Experience

Clinical Research Development Center (ACRDC) Manager

Amir oncology hospital, Shiraz university of medical Sciences, Shiraz, Iran

Nov.2024-Present

In this position, Professor Amanati (the head of ACRDC and president of Amir Oncology Hospital) and I work to create a center that conducts applied research to improve the quality of care at the oncology hospital. Our center serves both as a research facility and as the research and development unit of the hospital. We work on several transformational projects, such as the implementation of an electronic medical record system, a drug-drug interaction clinical decision support system, a hospital-based cancer registry, and text mining and analysis of patients' online social media to build a patient decision aid web tool.

Postdoctoral Research Assistant

Health Policy Research Center, Shiraz university of medical Sciences, Shiraz, Iran

Feb. 2022 – Oct. 2024

In this position, Professor Molavi and I work on interventions to make widely used complementary and alternative medicine (traditional Persian medicine) more evidence-based. As the first part of the project, I conduct a stakeholder analysis to familiarize with the key players in the field.

Grants

- Grant for RCT of Effectiveness of Coldamaris in Preventing Mucositis in Children with Acute Lymphoblastic Leukemia; Tachra Pharmed; 2025; Project Manager
- Socio-clinical Factors and Potential Drug-Drug Interactions: Analysis from the PERSIAN Cohort Study: National Institute For Medical Research Development; 2025; PI
- Association of socio-economic factors with drug utilization and polypharmacy: an in-depth analysis on data from PERSIAN cohort study. National Institute For Medical Research Development; 2022; Data Analyst

Skills

- **Programming & Data Analysis:** Python (Pandas, NumPy, Scikit-learn), SPSS, STATA
- **Data Visualization:** STATA, SPSS, Tableau, Python (Matplotlib, Plotly), GraphPad Prism
- **Qualitative Research:** MAXQDA, Venism
- **Network Analysis:** Gephi, NetworkX Python package
- **Other Tools:** WordPress, Adobe Photoshop, Django
- **Soft Skills:** Leadership, Teamwork, Critical Thinking, Project Management, Human Resources Management, Theorizing and Abstract Thinking

Certifications

- Social Network Analysis, Coursera (UC Davis)
- Writing in the Science, Coursera (Stanford Online)
- Python Programming for Beginners, Maktabkhooneh
- Advanced Python Programming, Maktabkhooneh
- Machine Learning with Python, Maktabkhooneh
- Signal Processing and AI in Healthcare, Nabzava

- System Dynamics and Venism, Faradars
- Project Management, Maktabkhooneh

Languages

- **English:** Advanced (IELTS Academic overall score 7.0)

Honors & Awards

- Selected and member for the Philosophy of Medicine Olympiad team of Shiraz University of Medical Sciences, 2017
- Second Place, National Students Debate Tournament, Shahrekord, Iran, 2017-2018
- 2nd place in the gymnastics floor section of Hamedan provincial competitions, 2005

Volunteer Activities

- **Cofounder:** Scientific Committee of Nesha, Shiraz University of Medical Sciences, 2016
- **Founder:** Student Committee of Fars's Charitable Health Society, 2015
- **Cofounder:** Faramazh (Environmental games start-up), 2018-2019
- **Volunteer:** Public online medical consulting platform for COVID-19, Shiraz, Iran, 2020
- **Volunteer KAPA NGO:** Various roles from 2015 to 2021, including Head of Human Resources and Research Department and member of the scientific department.
- Head of Public Relations Committee, First International Congress on Social Health Studies, 2016
